For: Garment For Bioinformation Measurement Having Electrode, Bioinformation Measurement System And Bioinformation Measurement Device, And Device Control Method

RESPONSE TO RESTRICTION REQUIREMENT

Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Madam:

In an Office Action dated December 30, 2011, the Examiner issued a Restriction Requirement with regard to the above-identified patent application. Generally, the Examiner indicated the following claims were restrictable:

Claims 22-27 and 31-35, drawn to a garment for measuring biological information (Group I);

Claims 28-30, 37, and 41, drawn to a cardiogram analysis device (Group II); and

Claims 36, 38-40, and 42, drawn to a respiratory information analysis (Group III).

Applicants hereby elect without traverse to prosecute Group I, including claims 22-27 and 31-35 in this patent application. Applicants also elect the species directed toward a garment having electrodes for cardiogram analysis. Claim 27 is believed to be readable thereon, with claims 22-26 being generic thereto. Applicants respectfully reserve the right to pursue the remaining claims in subsequent divisional applications.
